

Rock Eagle 4-H Center: Conference Facilities

The Cottages - Lodging & Accommodations

Rock Eagle's primary campus contains fifty-seven cottages, holding up to 22 people each. Many border Rock Eagle Lake for a dazzling view any time of day.

We are currently in the midst of a major cabin renovation project. While we still have traditional cottages available, many of these cottages have been take down and replaced with our new style cottages.

Traditional Cottages

Our traditional cottages have a living room, chaperone room with private bath and closet with two single beds. Two group lodging rooms in the back of the cabin offer four bunk beds. There are two additional bunk beds in the main living room for a total of twenty two beds. All cabins have a large shower and restroom facility and are equipped with air conditioning and heat for year round comfort.

New Cottages

Our new cabins feature private baths in 6 separate rooms. Five rooms have two bunk beds. The chaperone room has two twin beds along with a mini fridge. A common room in the middle of each cabin has sofas and tables for relaxing. All are equipped with air conditioning and heat for year round comfort and many feature wifi and satellite TV.
