

## 'Tis the Season

Below is a typical seasonal outline of the weather on Tybee Island. Once you have made a reservation, use this list to assist you in class selection and preparing a packing list for the students. Predicting the weather is nearly impossible so be prepared for a chilly night, a rainy day, windy classes, etc. Classes are held irrespective of weather unless the situation is deemed hazardous by the Camp Director and Program Coordinator. Children that are prepared have a better experience than those that are not. Prior to departure check the weather ([www.weather.com](http://www.weather.com)) for reassurance. All classes are offered year round except for Surf Sleuth.

### **Early Fall (September - October)**

- Very warm
- Rain possible
- All classes offered

### **Late Fall (November - December)**

- Mild to chilly temperatures in the morning
- Comfortable temperatures in the afternoon
- Too chilly for Surf Sleuth

### **Early Spring (January-February)**

- Mild to chilly temperatures
- Typically highs in the 60's and lows in the 40's
- Too chilly for Surf Sleuth

### **Mid-Spring (March-early April)**

- Mild temperatures
- Insects come out to play and eat
- Possibly too chilly for Surf Sleuth

### **Late Spring (late April-May)**

- Hot
- Ocean water temperature nice
- Bugs hiding in the shade
- All classes offered
