**Georgia 4-H Statement of Illnesses/Communicable Diseases**
The following statement is relevant for the club showcase event that will occur in April.

The goal of Georgia 4-H is for participants to arrive at events and activities healthy. Georgia 4-H reserves the right to not admit those who are ill or pose a communicable disease risk. If participants arrive at a 4-H event/activity ill or pose a communicable disease risk, parent/guardian will be required to pick them up immediately. Similarly, if symptoms develop while at the event/activity, parent/guardian will also be responsible for timely pick up.

Some events may include a pre-screening process. When that requirement is in place, it will be communicated with other event details.

Communicable illnesses* include, but are not limited to: head lice, pink eye, mononucleosis, strep throat, flu, or ring worm.

*Specific procedures exist in response to COVID-19 and are communicated within individual events and activities.

**Adult Volunteer Requirements & Responsibilities**
Georgia 4-H Club leaders follow the UGA Minors on Campus and Georgia 4-H policies to ensure the safety of youth and educators. Volunteers/staff working with youth must complete a background investigation with positive results including to positive references and participate in a risk management training prior to engaging with youth. These measures help us fulfill our duty to safeguard the youth we serve. Failure to follow these procedures risks violating the Minors on Campus and Georgia 4-H policies with potentially severe consequences.
