

VENDORS & ADDITIONAL COSTS

2024-2025 ENVIRONMENTAL EDUCATION PROGRAMS

Vendor Payments: UGA requires groups to pay the vendor(s) *directly* for their Environmental Education Program with the exception of dissection supplies (billed in final Burton 4-H invoice). A W-9 and Sales Tax Exemption Form(s) are also required for vendors. Groups unable to provide these forms will be subject to 7% Georgia sales tax from the vendor. *Groups are responsible for notifying vendors of actual attendance numbers and minimums.* Contact the vendor for additional wavers, deposits, and/or invoices required for reservation.

Environmental Education Requests: Notify your Environmental Education Coordinator via email of any planned program that requires additional supplies, costs, and/or reservations to be made by the Burton 4-H Center. After the reservation has been made and verified by the vendor, the group will receive reservation details and acquire responsibility of reservation. Please note: supplies and availability are *not guaranteed* and vendors may take reservations up to 12 months in advance. Groups are required to provide transportation to the vendor location (charter bus, vans, etc.)

School Led Requests: For Sunday arrivals, school led evenings, and/or a group interested in a program *after* departing Burton 4-H Center, please contact vendors directly to make a reservation.
