

Senior Wildlife Management Plan Scoring Rubric

Judges will use this rubric when scoring the Senior Wildlife Management Plans (3-A).

A high(er) score indicates the team is accurate and proficient in the content. A mid-range score indicates the team is progressing toward proficiency, but key content information was excluded. A low(er) score indicates the team is not accurate or developing their proficiencies related to this topic.

Team: _____

Judge: _____

<p>Part I: Plan Background (10 points maximum) _____ points</p> <p><input type="checkbox"/> Accurately identified the wildlife species to be managed and accurately identified the management objectives</p>
