ROCK EAGLE 4-H CENTER

Lake Assessment Journal Questions

1. What are some factors that you would need to consider before raising fish in a body of water?
2. Why would you need to consider the substrate material when trying to raise fish in a body of water?
3. What are some changes in the experimental process that would improve the accuracy of your results?
4. When doing fieldwork in this class, what problems did you run into and what would you change next time to help solve those problems?
