

Electricity and Circuit Science

Please give us your opinion of the lesson presented today (color in the stars): 5 Stars=the lesson was awesome

Gender: Male Female

Race/Ethnicity: (Circle all that apply)

White African-American/Black

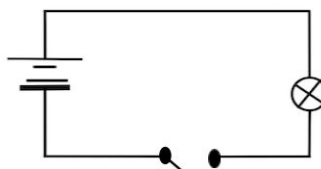

Asian American Indian

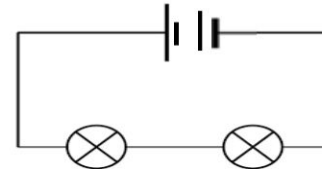

Pacific Islander Hispanic Ethnicity

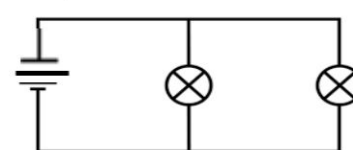

Grade: _____ Age: _____

Label these diagrams using the word box:

Series Parallel Simple

4-H is a place where I feel I belong.

Agree	
Disagree	

4-H is a place where I get to explore my interests.

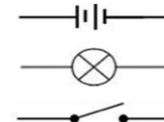

Agree	
Disagree	

Draw a line to match the word to the symbol:

Switch

Battery

Lightbulb

Circle the correct response:

Electricity is the flow of (electrons / protons / neutrons) around a circuit.

Answer the questions below by putting an “X” in the box.

Because of this lesson	Strongly Disagree 	Disagree 	Agree 	Strongly Agree 
I am more interested in Science...				
I am interested in exploring a job that uses science...				

The most important thing I learned today is...

If I could change anything about today’s lesson it would be...

A topic/activity I would like to explore related to science is...
