What is Horse Quiz Bowl?

Horse Quiz Bowl is a fast-paced contest in which teams compete face-to-face, buzzing in to answer questions about equine anatomy, conformation, feed and nutrition, evolution, breed characteristics, reproduction, horse management, way-of-going, tack and equipment, styles of riding and the exhibition of horses. The primary objective of the Horse Quiz Bowl contest is to provide an opportunity for youth enrolled in 4-H to demonstrate their knowledge of equine-related subject matter in a competitive setting where attitudes of friendliness and fairness prevail.

Learn More

- Horse Quiz Bowl is a 4-H program which develops self-motivation, self-esteem and responsibility.
- This project is conducive to both traditional rural 4-H members with equine experience and urban youth who do not have the opportunity to raise animals.
- Students have the opportunity to strengthen their communication and leadership skills in an environment which allows contribution to group effort, encourages teamwork and promotes acceptance of differences.
- Competing as team members assists youth with the development of social skills, cooperation and managing feelings, as they become comfortable with working alongside others toward a common goal; integrity and sportsmanship are also developed through the Horse Quiz Bowl experience.
- Cloverleaf, Junior and Senior 4-H members are eligible to compete in Horse Quiz Bowl. There are Junior and Senior divisions; Cloverleaf 4-H'ers who are in the 4th grade may compete in the Junior division.

Breakdown of the Contest

Play consists of double elimination tournament style matches; Participants must work with four to five team members to answer questions to the best of their ability.

Preparation Activities

- Each coach can determine the number of practices held during the judging season. Ideal practices last one hour to 1 ½ hours. You can have one to two practices a week. Teams can practice year round for a couple of months before the contest.
- Each county participating is required to submit 25 typed questions, per team, written new that year, from the official resources.

- Classroom activities can include:
 - Chapter and section review
 - Youth written questions
 - Interactive power points, videos and activities
- Try to make learning sections easier by starting with an easy topic. Mastery of basic topics before moving forward is important.
- To get to the state contest, look for emails from the state office on registration deadlines.
- Encourage them that this is a fun way to learn about horses especially if you don't have one.
- Don't forget the snacks at practice!
