Leaf Puzzles

Materials

- leaf puzzle pieces

Instructions

To assemble the leaf puzzle pieces, print one set of the cards. Cut out each leaf and then cut along the middle line that separates the leaf into two pieces.

Each person will get one puzzle piece. Participants will move around the room and find their “partner.” Once all participants find their partner/match, have them orally share their question and answer with the entire group.

Remember that not all species apply to Junior competitors. It is important to ensure that all distributed cards have matches. This works particularly well for larger groups but could be challenging for smaller groups.
