

Lodging Options

All of our lodging options are climate-controlled buildings with 20-32 bunk beds. Each building has flush toilets, sinks, and shower stalls. Each location also has a small private room and bath for two adults.

Lodging is assigned according to the attendance numbers listed on the contract. Males and females are housed in separate buildings. Each dorm must have at least one adult chaperone. Below are floor plans and forms for bunk assignments for your convenience.

Note: *No food or drinks are allowed in the lodging facilities.*
