

## Shark Dissection Journal Questions

1. Label the external parts of the spiny dogfish.

2. What is the function of a shark's liver and why is it so large?
3. Why is it important to dissect? List four reasons.

4. Sharks have six senses. What is the additional sense sharks have that we as humans do not? What organ helps with this sense?

5. How can you tell the difference between a male and a female shark? What gender was your team's shark?

6. List four things that threaten sharks. What would happen if we no longer had sharks?

7. Florida has the most cases of shark attacks in the US. Why do you think this is?

8. List three differences between sharks and bony fish.

9. What do sharks eat? List a minimum of four things.

10. What was your favorite part of the dissection? Why?
