

## Classes Offered

### Classes Offered and "What to Wear"

Our program offers 18 day and night classes that you can choose from! All of our classes are research, academic and curriculum based, aligned with the [Georgia Performance Standards](#) in a variety of discipline areas. These engaging, hands-on classes are categorized into 5 areas: [Outdoor Skills](#), [Team Building](#), [Ecology](#), [Living History](#) and [Night Classes](#). Take a look at a brief description of each class below!

Each class description also includes the suggested (or required) attire for that class. **Please note:** flip-flops (or any sandal *without* a heel strap) are not acceptable to wear anywhere outside of the dorm.

#### [Outdoor Skills](#)

- Archery
- Canoeing
- Orienteering
- Wilderness Survival

#### [Team Building](#)

- Team Initiative 1
- Team Initiatives 2

#### [Ecology](#)

- Entomology
- Herpetology
- Forest Ecology
- Pond Ecology
  
- Ichthyology (Fishing)

#### [Living History](#)

- Farm to Plate
- Pioneer Days

#### [Night Classes](#)

- Amphibians
- Campfire
- Sensory Awareness

## Outdoor Skills

### Archery

This is a 2-hour class where students will be introduced to some basic archery skills (safety, history and shooting technique). Students will use what they have learned to shoot targets on the archery range. **What to wear:** *Closed-toed shoes are required. Otherwise, comfortable clothing.*

### Canoeing

This 2-hour class will give students the opportunity to paddle around our pond while learning proper strokes, parts of a canoe, and teamwork.

**What to wear:** *Clothes and shoes that can get wet are suggested.*

## Orienteering

(Limited space available) Students will be introduced to some basic orienteering skills (compass use and pacing). After being refreshed on a few math concepts, students will get an opportunity to test what they've learned by venturing out onto an orienteering course at Fortson. **What to wear:** *Whatever is comfortable.*

### Wilderness Survival

Students will work in teams while learning and practicing methods of safety and survival.

Students will use teamwork while building survival shelters and fires (not lit) in this 2-hour class. **What to wear:** *Closed-toed shoes are required. Clothes that can get dirty are suggested.*

## Team Building

### Team Initiatives 1 (K-4th Grade)

Students are introduced to the principles of team building. **Without ever going on the low element course,** students will explore what it takes to be an effective team. Topics that may be addressed are trust, goal setting, challenge, problem solving and just plain fun!

**What to wear:** *Closed-toed shoes are required. Otherwise, whatever is comfortable.*

### Team Initiatives 2 (5th Grade and Up)

Groups focus on the principles of team building by working through a progression of initiatives and elements. The aspects addressed in this 2-hour class may include goal setting, trust, problem solving, planning, and cooperation. Most groups will progress onto our low elements course during this class. **Can be combined with Team Initiatives 1 for a more in depth team building experience!**

**What to wear:** *Closed-toed shoes are required. Otherwise, whatever is comfortable.*

## Ecology

### Ichthyology (Fishing)

Students will have the opportunity to learn about and examine the most diverse group of vertebrates on Earth, fish. During this 2-hour class, students will dive deeper into understanding the diverse world of fishes, exploring the freshwater fish that call Fortson home, identify and examine major external anatomy of fish, discussing the role fish play in an ecosystem, and the relationship between fish and humans. Students will also work firsthand with catching and releasing fish from the Fortson Pond.

**What to wear:** *Closed-toed shoes are required. Otherwise, whatever is comfortable.*

### Entomology

Students will develop a better understanding of insects through collection, classification and observation. During this 2-hour class, students will use collection devices and explore the insect life at Fortson. Concepts learned will be basic insect anatomy and the important role insects play in a healthy ecosystem.

**What to wear:** *Closed-toed shoes are required. Otherwise, whatever is comfortable.*

### Herpetology

Students get the opportunity to handle, observe and learn about reptiles and amphibians. Characteristics and adaptations of snakes, turtles, lizards, frogs and more will be discussed. Many of the misconceptions about these beneficial, but often misunderstood, animals will also be dispelled.

**What to wear:** *Whatever is comfortable.*

### Forest Ecology

Students will have the opportunity to learn about and study some of the components of a Georgia Piedmont forest ecosystem. Exploring the forest floor, learning the identifying characteristics of common species of trees, and learning about the process of decay in forests are all some of the topics in this class.

**What to wear:** *Closed-toed shoes are required. Otherwise, whatever is comfortable.*

### Pond Ecology

Students will use nets to identify common organisms found in the Fortson Pond. Aquatic organisms, characteristics of ponds and the movement of energy in the food web will be discussed through exploration and hands-on activities.

**What to wear:** *Clothes and shoes (particularly sandals) that can get wet and muddy are strongly suggested. Students have the option of getting knee-deep into the pond.*

# Living History

## Farm to Plate

Students will learn healthy lifestyle choices. Students will also see farm animals during this class and learn about the food they provide for us. The class focuses on how food gets from the farm to the plate - the process it goes through to get there. A few items students may be able to experience include: collect and candle eggs, plant a seed, harvest fruit and vegetables. At the end of class, plant and animal products are brought together with making a delicious a smoothie they can drink.

**What to wear:** Closed-toed shoes are required. Otherwise, whatever is comfortable.

## Pioneer Days

Rediscover life from a bygone era. This 2-hour class guides students through typical "chores" associated with life on a settler's farm during this time period. Some chores could include candle making, cotton seeding, washing clothes, making butter and making corn bread over the open fire.

**What to wear:** Closed-toed shoes are required. Otherwise, whatever is comfortable.

## Night Classes--- all night classes are 1 hour long

### Amphibians

Students will learn what makes amphibians different from reptiles and how metamorphosis works while observing several captive amphibian species. They will also get the chance to go on a frog search around the Fortson pond.

**What to wear:** Closed-toed shoes are required. Otherwise, whatever is comfortable. As students will be around (but not in) the pond, shoes have the possibility of becoming muddy and/or damp.

### Campfire

Instructors lead students in a fun-filled hour of songs, skits, and stories! S'mores are also included!

**What to wear:** Closed-toed shoes are suggested. Otherwise, whatever is comfortable.

### Sensory Awareness Hike

Students are given the opportunity to explore their environment through sensory activities and experiences. Emphasis is placed on using the senses at night as they explore Fortson in the dark with a variety of different activities.

**What to wear:** Closed-toed shoes are required. Otherwise, whatever is comfortable.

The University of Georgia 4-H program is the largest youth leadership organization in the state.

*An equal opportunity/affirmative action institution*
